PROFESSIONAL SUMMARY

Laravel & PHP Developer with **4.8+ years** of experience building production-grade backend systems in PHP 8.x, Laravel, and CodeIgniter across fintech, trading, and payment domains. Strong focus on **clean architecture, SOLID principles, and high-performance API integrations** — including payment gateways, KYC/identity APIs, and financial data pipelines. Active Cursor AI user for accelerated development and code quality. Experienced coordinating with cross-functional teams in Agile environments.

PROFESSIONAL EXPERIENCE

Wegofin Digital Solution · Software Developer

📅 Aug 2024 – Present 📍 Mumbai

- Architected an in-house payment gateway (Pay-In, Payout, Settlement, Reconciliation) for high-volume financial transactions using **SOLID principles and clean architecture**.
- Designed and delivered **multiple production microservices** — KYC, Merchant Management (MMS), Dispute Lifecycle (DLMS), Fraud Risk (FRM), and S3 File Storage — each as an independent, fault-tolerant unit.
- Implemented secure Service-to-Service (S2S) communication using **SHA-256 request signing** across all distributed financial services.
- Integrated Aadhaar, PAN, and Bank Penny-Drop/Penny-less APIs into the **KYC pipeline**; designed SQL schema for full compliance audit trails.
- Translated PRDs into detailed FRDs with API contracts and workflow diagrams, keeping PM and co-developers aligned. Used **Cursor AI** for accelerated development.

Tech Stack: PHP 8.x, Laravel 10, MySQL, AWS S3, SHA-256, JWT, REST APIs, Bootstrap, Jira

Manektech Pvt Ltd · Software Engineer

📅 Apr 2023 – Jul 2024 📍 Ahmedabad

- Delivered **3 cross-domain Laravel projects** end-to-end — crypto trading platform, PropTech dashboard, and EdTech quiz engine.
 - **Khumo (Crypto Trading):** Designed secure wallet & trading APIs with JWT auth, transaction signing, and blockchain API integration.
 - **Truppraisal (PropTech):** Built admin dashboard from scratch, integrated property valuation APIs for real-time data sync and analytics reporting.
 - **3D Anatomy (EdTech):** Engineered full quiz engine — question bank, category management, scoring logic, and progress analytics.

Tech Stack: PHP, Laravel, MySQL, REST APIs, JWT, Blockchain API, JavaScript, jQuery, Bootstrap

Tailored Solutions Pvt Ltd · PHP Developer

📅 Aug 2021 – Apr 2023 📍 Ahmedabad

- Owned full backend delivery on **6 cross-domain projects**: restaurant booking, employee GPS tracking, phone theft reporting, exhibition management, student quiz apps, and food delivery.
- Implemented **Role-Based Access Control (RBAC/ACL)** for granular admin, manager, and user-level permissions across multiple platforms.
- Leveraged **Crudbooster (Laravel)** for rapid admin dashboard scaffolding, reducing delivery time on 2 projects.

Tech Stack: PHP, Laravel, MySQL, Crudbooster, REST APIs, ACL, JavaScript

Darstek Trading & Solution Pvt Ltd · Software Developer Intern

📅 Feb 2020 – Aug 2020 📍 Mumbai

- Built a **full Laravel e-commerce platform** — product listing, cart, order management, and admin modules end-to-end.

Tech Stack: PHP, Laravel, MySQL
